Screw-Mentable Crowns

When esthetics and strength are in high demand, the Screw-Mentable Crown is your completely customized solution. ASC (Angled Screw Channel) is now available on the select major platforms. Contact your chairside rep or technical support to learn more.

FEATURE	BENEFIT	ADVANTAGE
Screw Access Hole	<ul style="list-style-type: none"> Easily Retrieved No Excess Cement 	Remove without damage and reduce peri-implantitis
ASC (Angulated Screw Channel) *not available on all platforms*	<ul style="list-style-type: none"> Re-angulate screw access hole up to 25° 360° rotational freedom 	Increased Mobility = Improved Aesthetics and Strength
Patient-Specific	Each abutment specifically designed for the patient.	Natural emergence profile creates a life-like look; less risk of de-cementing because the abutment is proportional to the crown.
Retrievable	Unscrew for future cleaning, adjustments, or adjacent dental work	The crown is not destroyed if it needs to be removed, saving time and money
Mirror Finish	Reduced plaque adhesion and gingival inflammation	Improved clinical outcomes
New Final Screw Included	Lab does not use your clinical screw	Reduced stripped screws
FDA Compliant Components	<ul style="list-style-type: none"> Practice will be compliant Patient Safety 	You can trust your lab!
LIFETIME Warranty* *Visit website to view full warranty information	Matches authentic implant system	Save money without sacrificing warranty
